Descriptors-*CLASSICAL LANGUAGES, CLASSICAL LITERATURE, *COLLEGES, DEGREES (TITLES), *DIRECTORIES, *LANGUAGE TEACHERS, PAROCHIAL SCHOOLS, PRIVATE SCHOOLS, PUBLIC SCHOOLS, *SECONDARY SCHOOLS, STATE SCHOOLS

This partial list of classics teachers is based on responses to an American Classical League biographical information form. Classics teachers at all levels are included and listed alphabetically within each state, with states grouped according to region. Each entry includes the highest academic degree attained, the resident address of the teacher, and, in most cases, the school, college, or university at which he is employed, with a code number identifying the school as public, private, or parochial. The list is followed by a table indicating the distribution of academic degrees in the various types of schools and universities for each region of the United States, an alphabetical index by name of all entries, and a sample information form. ROSTER OF CLASSICS TEACHERS

In January 1967 a short biographical form, with the acronym ROCLAT, was included in the ACL mailing that went to approximately 29,000 people throughout the United States. Recipients were asked to fill out the form and send it to the ACL Executive Secretary in Washington. Those who wished to have a copy of the completed ROSTER were asked to enclose $1 with the form.

It was hoped that this attempt to find out *who and where we are and what we are doing* would meet with such an enthusiastic response that by June 1967 we would have for the first time in our long history a fairly complete roster of classics teachers at all levels. From the returned forms we would learn *for the first time* how many full time Latin teachers there were in secondary schools, how many were teaching Latin in combination with other subjects, and what those subjects were. We would also learn something of the educational background of the teachers, how many had attended special workshops or institutes at home or abroad, and what subject or field each considered his or her specialty. From date of birth we would get some idea of prospective retirements and consequent vacancies.

Aside from name, address, school affiliation, and most advanced degree, date of birth was least often omitted! A few teachers expressed the pious hope that the dates would not be printed and a few indicated that it was nobody's business. On the whole, however, response on that score was surprisingly good.

The discouraging and surprising thing was the total lack of response from the overwhelming majority of the 29,000 mailees. Response from the mailing was so poor—about 1,600 replies over a period of five months —that a second mailing seemed necessary. This took place in September 1967. This brought in only about 1,200 more.

Not all of the replies could be used. Some came too late to be used in the tally of various items. A few have come in too late to be used in the ROSTER which has taken final form at this writing, 4 March 1968.

All entries are arranged alphabetically within states by regions. A code number indicates the type of school—public, private, or parochial.* The name of the school indicates whether secondary, college, or university. Unless the school is the place of residence, all addresses and zip codes are *home* addresses. Although the form called for addresses of both school and home, the latter was given far more often than the former. For that reason home addresses are given in the ROSTER except as mentioned above.

Some of the data from the ROCLAT forms are included in the Report entitled, THE OXFORD CONFERENCE AND RELATED ACTIVITIES,

---

* 1 = public institution, 2 = private, 3 = parochial.

which will be available at the office of the ACL Executive Secretary by the end of March 1968. Its price will be $1.

Each copy of the ROSTER will contain several tear-out forms to be used in submitting information for the next issue. Instructions will be printed on the forms to expedite handling. One item is of particular importance if the forms are to be of maximum use—the item calling for identification of the teacher's specialty. It is applicable at all levels. For example, a secondary school teacher might list a specialty such as VISUAL AIDS, CAESAR BIBLIOGRAPHY, ROMAN COSTUMES, ANCIENT GEOGRAPHY, ROMAN ROADS, JCL CONVENTIONS, RELIGION IN VERGIL, or any number of various interests. College professors might list such topics as Greek Epigraphy, the MS Tradition of some author, ancient warfare, medieval romances, gnomic poetry, and many others.

There must be many gifted teachers among our number who keep their abilities to themselves. Some will be particularly gifted in public relations, others in writing plays and sketches in English or Latin for production on the stage, radio, or TV. We need to locate and encourage people with various kinds of talents in all of our schools and colleges. We need to do all we can in every possible way to promote study and teaching of the classics and to make the classics more and more a vital part of American education and life.

Tell your colleagues about ROCLAT. Urge them to buy a copy. Use one of the tear-out forms in the back for yourself; give the others to colleagues. Additional forms may be requested from the Executive Secretary's office in Washington.

There must be more than 2,700 Latin and Greek teachers in the United States! Full time or part time, we want to know who you are, where you are, and what you are doing. The CLASSICAL CRUSADE needs you now!
